

Flexmetal & Flexam

Elastomer is a **flexible** material containing magnet particles. **FLEXMETAL** and **FLEXAM** can be magnetised to any non-metallic surface.

*Indoor display
(ferrous elastomer on FLEXAM adhesive)*

FLEXMETAL is a non-magnetic flexible ferrous elastomer.

FLEXAM is a raw magnetic elastomer, some models of which have an adhesive side.

In addition to existing formats, OPM offers you the possibility of obtaining made-to-measure dimensions.

Model	Thickness (en mm)	Length (in mm)	Width (in mm)	Typical force (in g/cm ²)	Features	Reference	Quantity per smallest packaging
FLEXAM	0.4	30	620	20	Raw	0661068	30
	0.5	30	620	20	Raw	0661061	30
	0.7	30	620	35	Raw	0721061	30
	0.7	15	600	35	Raw Adhesive	0721069	15
	1.5	15	620	55	Raw Adhesive	0701055	15
FLEXMETAL	0.5	30	620	20	Raw	0278096	30
	0.5	30	620	20	Adhesive	0278106	30
	0.6	30	620	20	Matt White	0278071	30
