

Placor & Placam

Efficient and **economical multi-purpose** solution. Low thickness for optimum strength, from 90 to 180 gr/cm². Placam/Placor are recommended for the following applications: ski racks, driving school/taxi sign holders, fire extinguisher holders, etc.

Rectangular PLACOR

Rectangular PLACAM

PLACAM hook

Fire extinguisher door

Cylindrical PLACAM

Magnetic elastomer bonded to a white lacquered steel sheet covered with a peel-off protective film. The magnetic side can be coated with a colourless protective varnish. The larger the surface, the greater the force.

Model	Diameter (mm)	Thickness (mm)	Typical load-bearing capacity (g/cm ²)	Reference	Quantity per smallest packaging
