

## Surface-mounted magnetic catches - RALY

Easy to install, a magnetic closure provides a quick and effective solution. This series features fully recessed screws and a movable counterplate mounted on a plastic baseplate. What's more, its slight mobility means it can take up any slack.

*RALY white*

*RALY brown*

*RALY chamois*

The pole weights of the RALY magnetic catches are locked in a plastic body. Two oblong holes are provided for adjustment. They are surface-mounted on wood or metal, and a movable counterplate is supplied as standard with the RALY. The counterplate is riveted to the plastic base.

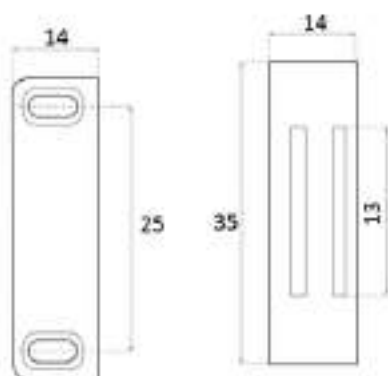

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	With counterplate	Quantity per smallest packaging
RALY 3	0111001	White	35 x 14 x 14	3	Y4	20

## Surface-mounted magnetic catches - SUPEC

Ideal for securing a cupboard door, fixing a shoe hatch, etc. Easy to install, a magnetic fastener provides a quick and effective solution.

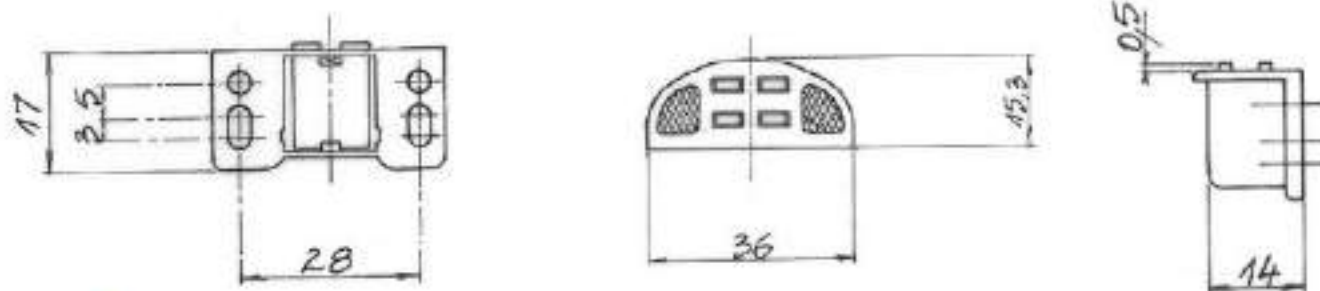

These surface-mounted models have **movable centre weights**, allowing automatic adjustment of parallelism. Their simple design makes them **particularly economical**.

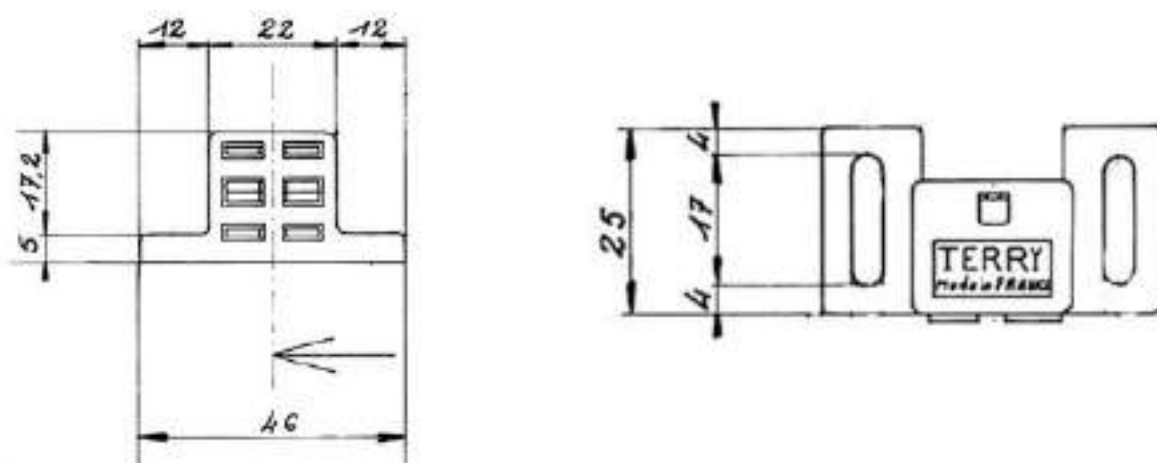

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	With counterplate	Quantity per smallest packaging
SUPEC 4	0112010	White	36 x 17 x 15,3	4	No	1000
	0112011	Brown				
SUPEC 11	0522022	White	46 x 25 x 22,2	11	No	50

## Surface-mounted magnetic catches - UBI

 Ideal for securing a cupboard door, fixing a shoe hatch, etc. Easy to install, a magnetic fastener provides a quick and effective solution.

 Surface-mounted on wood or metal. All models are supplied with a counterplate. The closure and counterplate are each fixed with 2 screws (not supplied).  
*Counter plates with a single screw can be supplied on request.*

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	With counterplate	Quantity per smallest packaging

## Surface-mounted magnetic catches - LS

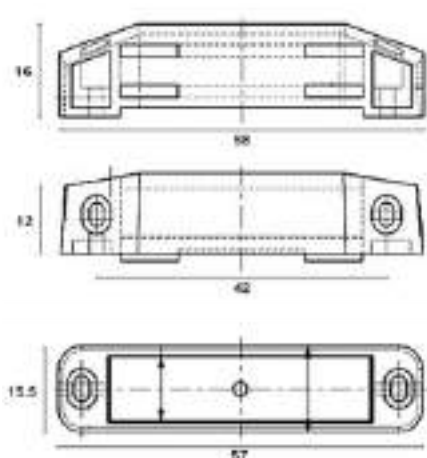

Powerful and easy to install, a magnetic lock will provide a quick and effective solution. This series is recommended for all types of furnishings.

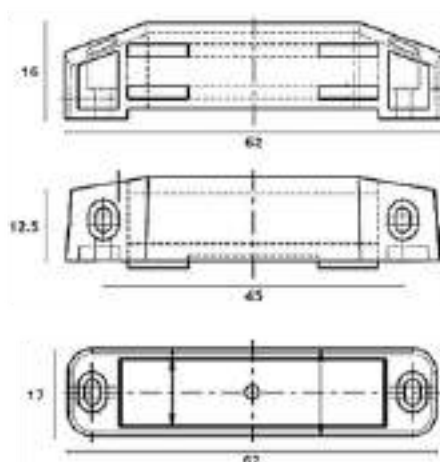

LS magnetic catches are supplied with a counterplate. The lock and counterplate are each secured with 2 screws (not supplied).

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	With counterplate	Quantity per smallest packaging
LS 4	<b>0307040</b>	White	58 x 16 x 12	4	Yes	20

## Surface-mounted magnetic catches - TICONAM SUPER X serie 6

These magnetic catches are recommended for very neat installations. They offer good attraction from a distance, and the arrangement of the poles allows the counterplate to shift slightly.

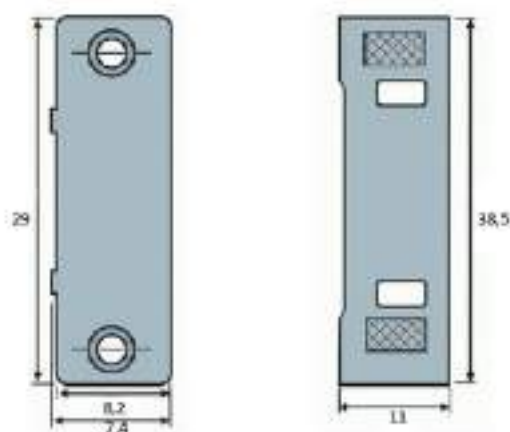

TICONAM SUPER X Series 6 catches have an unbreakable, anti-static, ageing-resistant polyamide plastic body. The fixing holes are completely recessed and parallel to the magnetic face. For the Junior and Senior models, caps hide the screw after assembly, giving an extremely finished look.

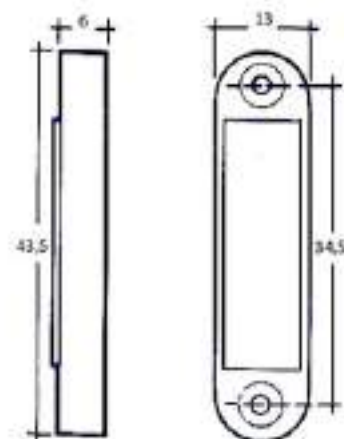

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	With counterplate	Quantity per smallest packaging
Baby 06	<b>0102006</b>	White	38,5 x 11 x 8,2	2	0A	20
Junior 16	<b>0102016</b>	White	46 x 11 x 14	4	1A	20
Senior 26	<b>0102026</b>	White	50 x 13 x 15,3	7	2A	20

## Surface-mounted magnetic catches - BS series

This range of studs is designed for attraction in a wide variety of fields. They feature a Ferram magnet combined with two fixed zinc-plated pole shoes. The whole unit is moulded in black polystyrene. These catches are compatible with a 1.5mm-thick soft iron backplate or an OPM backplate from the Q series.

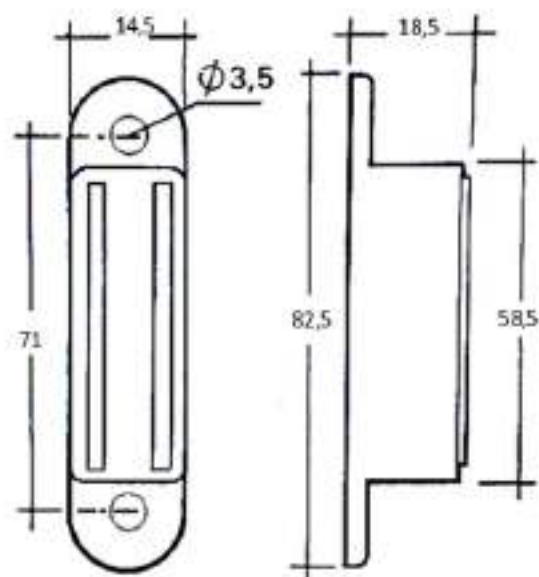

Series BS catches are surface-mounted. The attractive force is perpendicular to the fixing face.

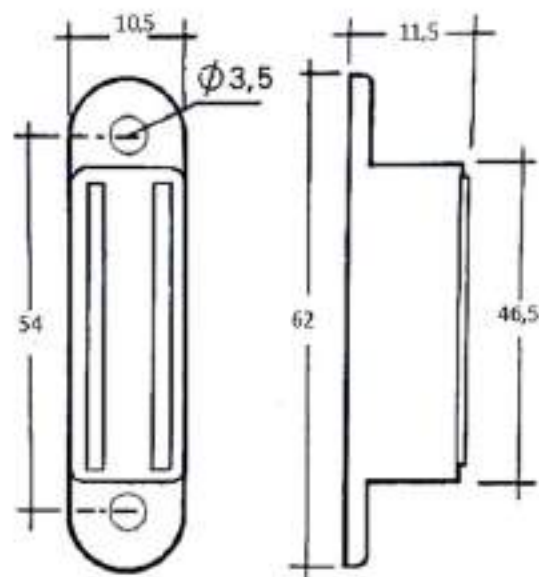

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	Quantity per smallest packaging
Bs 3	<b>0202003</b>	Black	32 x 10,5 x 11,5	3	500
Bs 6	<b>0202006</b>	Black	45 x 10,5 x 11,5	6,5	500
Bs 10	<b>0202010</b>	Black	62 x 10,5 x 11,5	10	500
Bs 15	<b>0612010</b>	Black	82,5 x 14,5 x 18,5	14,5	20

## Surface-mounted magnetic catches - CS series

This range of studs is designed for attraction in a wide variety of fields. They feature a Ferram magnet combined with two fixed zinc-plated pole shoes. The whole unit is moulded in black polystyrene. These catches are compatible with a soft iron backplate at least 1.5mm thick, or a Q series backplate.

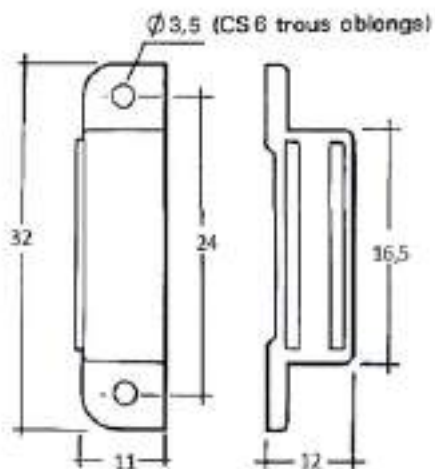

CS Series catches are surface-mounted. The force of attraction is parallel to the mounting surface. The CS 6 is available with oblong mounting holes.

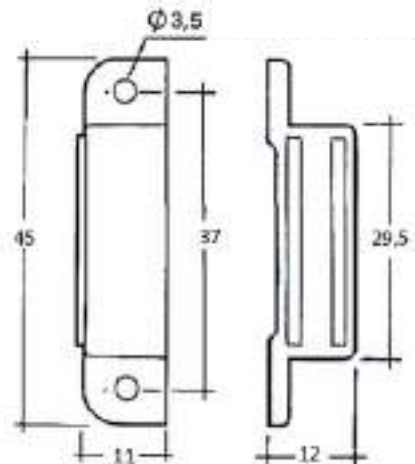

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	Quantity per smallest packaging
Cs 3	<b>0203003</b>	Black	32 x 11 x 12	3	500
Cs 6	<b>0203006</b>	Black	45 x 11 x 12	6,5	500
Cs 10	<b>0203010</b>	Black	62 x 11 x 12	10	500

## Surface-mounted magnetic catches - GIANT series

These models are mainly used for very high door jambs (cupboards, storage units), or for fixing inspection hatches. Using the latest multi-pole magnet technology, they are highly attractive to glue.

GIANT 136

GIANT 33

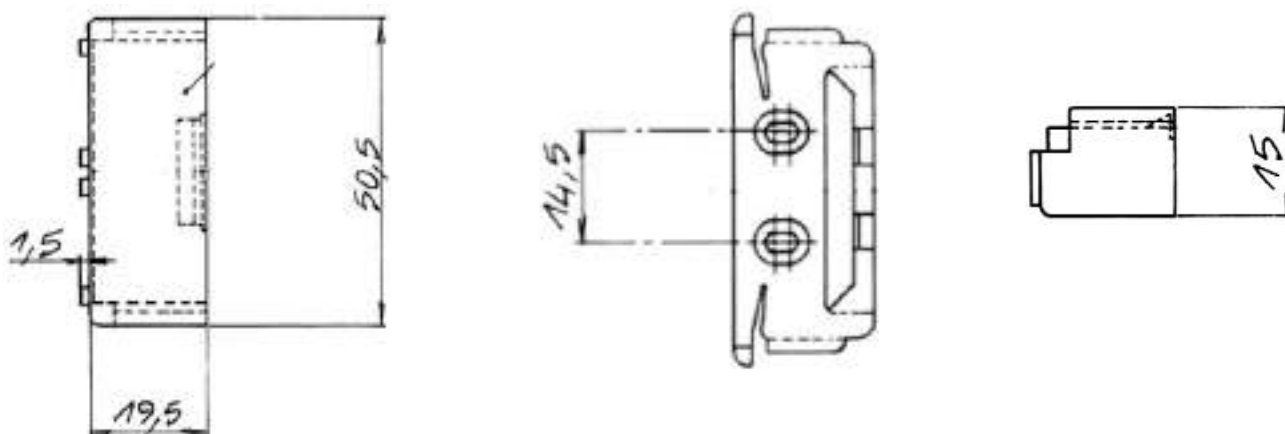

The **GIANT 136** magnetic closure is made up of two parts (to make it less bulky and more attractive): a black polyamide plate and a magnet moulded in antistatic, unbreakable black polyamide.

The **GIANT 33** magnetic closure is made up of polar weights that take up door play. This model is surface-mounted.

Model	Reference	Color	Dimensions (mm)	Typical load-bearing capacity (kg)	Quantity per smallest packaging
GIANT 136	<b>0103036</b>	Black	50,5 x 15 x 19,5	10	10
GIANT 33	<b>0101033</b>	Black	78 x 20 x 11	8	20
